ABOUT ME

I'm Alvin Dennis, a passionate B.Tech student majoring in Electrical and Electronics Engineering. I thrive on exploring the intersection of technology and creativity, with a keen interest in both the technical world and the realm of music.

In my academic journey, I delve into subjects that range from circuit design and power systems to digital electronics, constantly seeking to expand my knowledge and skills in the field. The challenge of solving complex problems and the ever-evolving nature of technology keep me motivated and excited about my studies.

Beyond the academic sphere, I'm a tech enthusiast who loves to experiment with the latest gadgets, explore coding projects, and stay updated on emerging trends in the tech industry. My curiosity extends to the world of music, where I find solace in composing and listening to diverse genres.
